

# MILAN GAJIĆ

PYTHON DEVELOPER

Location: Novi Sad, Serbia

Email: mgajic21234@gmail.com

Phone: +381 63 810 69 22

---

## CAREER OVERVIEW

Aspiring Python Developer with a strong foundation in Python programming and a year of intensive training through an IT academy. Proficient in building and maintaining Python-based applications, with hands-on experience in various projects. Skilled in problem-solving and collaborating with cross-functional teams to deliver efficient and effective software solutions. Eager to apply my knowledge and continue learning in a professional development environment to contribute to innovative projects and expand my expertise in Python development.

---

## EXPERIENCE

### IT Academy (2022 - 2023)

- Python Fundamentals: I've cultivated a strong foundation in Python programming, encompassing language syntax, data structures, and algorithms.
- Object-Oriented Programming (OOP): My projects showcase my ability to design and implement OOP solutions, enhancing code maintainability.
- Database Expertise: Proficient in working with MongoDB for flexible data storage and SQLAlchemy for effective relational database management.
- Web Development: I've created web applications using Flask and Django, adapting solutions to project requirements.
- GUI Design: Designed user-friendly graphical interfaces using Tkinter for desktop applications.
- Automation and Testing: Leveraged Selenium for web testing and automation, ensuring software quality.
- Data Handling: Manipulated XML data for various project requirements, including data exchange and configuration management.
- Testing and Reliability: I employed unittest to implement unit testing, maintaining code reliability.
- Web Technologies: Utilized HTML and CSS to structure and style web pages effectively.

My educational journey provided the opportunity to work on diverse projects, reinforcing my expertise in Python and related technologies. These projects represent my dedication to mastering a wide range of tools, showcasing my passion for creating impactful software solutions.

## Hotel Sheraton, Novi Sad (2022-2023)

### Position: Bar Manager

- Organizing and overseeing activities and resources within my scope of work.
- Improving work processes and developing procedures.
- Making decisions within my authority.
- Coordinating and collaborating with colleagues from other organizational units.
- Selecting, training, supervising, monitoring, and evaluating team members, sharing experience, knowledge, and continuous support.
- Ensuring excellent service, scheduling, and supporting staff during shifts to maintain service quality, speed, and workplace cleanliness.
- Monitoring and updating bar administration to ensure quality operations according to all standards.
- Generating necessary documentation in printed form.
- Ensuring and providing training on bar equipment and machinery handling.
- Monitoring and adhering to all cash handling procedures.
- Planning and regularly ordering beverages and verifying deliveries, monitoring stock levels in all storage areas.
- Following deadlines - FIFO system.
- Supervising and training new hires in accordance with company standards and procedures.
- Controlling costs and minimizing waste.
- Responsibility for compliance with occupational health and safety rules and fire protection.
- Controlling the monthly inventory count.

In this role as a Bar Manager, I gained extensive experience in coordinating and collaborating with colleagues, training and supervising team members, ensuring excellent service, and adhering to various procedures and standards. My responsibilities also included cost control, compliance with safety regulations, and inventory management. These experiences allowed me to develop strong interpersonal and leadership skills while maintaining a focus on quality and safety.

## Norwegian Cruise Line, U.S.A (2017-2022)

### Position: Bartender, Mixologist

- Conducted daily cocktail and drink tastings, enhancing guest experiences.
- Received accolades, including the Vacation Hero Guest Feedback Award, for high guest ratings and exceptional service.
- Created custom cocktails tailored to guest preferences in NCL's VIP bar, Be-Spoke.
- Ensured exceptional guest experiences, maintained inventory, and upheld strict hygiene standards.
- Provided training for new colleagues, contributing to a high-quality bar service.

In these roles, I excelled in providing outstanding guest experiences, demonstrated strong attention to detail, and contributed to high-quality bar service.

---

## EDUCATION

ITAcademy, Belgrade (2022-2023)

**Program: Python Development**

Electrical Engineering School "Mihajlo Pupin", Novi Sad (2010-2014)

**Program: Multimedia Electrical Technician**

---

## SKILLS AND TOOLS

- Python Fundamentals
- Object-Oriented Programming (OOP)
- Flask
- Django
- Tkinter
- Selenium
- unittest
- MongoDB
- SQLAlchemy
- MySQL
- Git
- HTML
- CSS
- XML
- Web Scrapping (soup)

## LANGUAGES

English - Advanced  
Serbian - Native

## SOFT SKILLS

I bring not only technical expertise but also a range of essential soft skills to any team. I excel in communication, both in conveying complex ideas and actively listening to my colleagues. My adaptability allows me to thrive in dynamic work environments, while my problem-solving skills enable me to address challenges effectively. I'm a dedicated team player, fostering collaboration and contributing positively to group dynamics. Additionally, my strong work ethic, attention to detail, and commitment to continuous learning make me an asset in any professional setting. With a passion for growth and a positive attitude, I am eager to contribute to the success of any project and organization.
